2 -1000W Overhead Scoop Lights just behind Proscenium Arch

AEOLIAN'S HOUSE SOUND & LIGHTING TECHNICIAN: CHRISTOPH BABIN

Christoph has taught Live Audio and served as a technical maintenance technician at the Ontario Institute of Audio Recording Technology (OIART). For over three decades he worked as a freelance live audio engineer for local production companies and touring bands. His work has taken him into venues ranging in size from clubs and houses of worship to theatres and arenas. Each upcoming show is a new delight for Christoph. He loves cultivating the trust of artists to help them perform at their best. Christoph is a foundational pillar in the success of Aeolian's reputation as one of the best venues in Canada.
